Vision
To become globally benchmarked education, IT and health care service provider and young entrepreneurs’ hub!
The success of an organization depends on leaders who carry the shared vision, know the objectives and set direction to develop a strategy that determines how to achieve the objectives. Daffodil Family has created such leadership examples during the past years. The founder of Daffodil Family always allowed his colleagues to work with 100% freedom and that is one of the best practices in Daffodil Family.

Focus on New Technologies

Innovation Lab has been set up to focus and take strategic direction to develop the product, services, education systems considering the changing landscape of future time. As part of this, Daffodil Family is setting up STEM lab in all of its education ventures so that students can get skilled in Science, Technology, Engineering and Mathematics which is the demand of this time.

Smart Education City

Daffodil Family dreams to develop a self-sustaining, modern and completely digitized and technology driven education city with a view to capitalizing on every aspect of the higher education eco-system. It will be the first of its kind in this region and will be destination for total education systems (PG to PG) for every discipline, health care and recreation.
This charitable effort is the vision of The Daffodil Group founder, Mr. Md. Sabur Khan. Daffodil Foundation aims to address the difficulties and basic needs of poor and underprivileged people in Bangladesh. The Foundation was set up in 2004 and registered on the Joint Stock Companies of Bangladesh under Society Registration Act 1860. Since then, we have begun projects in areas like: education, training, health issues, women rights and empowerment, and many more. We are trying not only to bring opportunities to the poor but also to solve their issues in new and imaginative ways. We are now inviting people and organizations to make a joint effort with us to ensure secure and satisfying lives for the peoples and giving effort to remove poverty from the nation.

We encourage joint initiatives to ensure a global environment and attract future leaders from home and abroad to study, learn, and exchange experiences. Already we initiated a joint initiative called Daffodil Japan IT in Dhaka and we welcome any collaborative effort with international partner.

We believe every successful organizations have some important responsibilities to perform other than growing their business and that is to serve to the society. Daffodil Family was born with the philosophy of contributing to the society and helping in nations building. The DF is standing on the simple rules and that is what our contribution to the society is and how you would like to contribute?

Our CSR activities are relevant to local, national and global contexts, keep disadvantaged communities as the focus. Daffodil Family organized it considering the following factors:

Health, primary education, skills training and entrepreneurship, livelihoods, women and empowerment.
