## Short Note

Founded on May 15, 1990 by Dr. Md. Sabur Khan, Daffodil Family is the leading ICT conglomerate and the largest education provider in Bangladesh. Daffodil took its first teetering steps with Daffodil Computers Ltd, (DCL) the first public listed ICT Company in the country. Our efforts and innovation in the last few years have brought us a global reputation as the outstanding solution provider in the country.

Today, Daffodil Family has over 54 concerns in four areas: ICT, education, the health care sector, and investment. We are now operating in several major divisions and cosmopolitan areas in Bangladesh as well as internationally (in the UK, USA, Australia and Malaysia) with networks and links worldwide. We are committed to ensuring quality education, modern ICT Solution and services, affordable health care services and creating investment opportunities to the country.

Since its establishment Daffodil Family has positively impacted millions of people's lives through ICT & Education, Skill Development, Health Care Services, Developing Entrepreneurs and strengthening all the support services required for the Society & Community. Presently Daffodil Family is contributing in the sustainable development goal to enact positive changes in the society and community. During the COVID time, the Daffodil Family put highest effort to find solutions of new normal situations and brought solutions to keep the education, business, healthcare services uninterrupted.

## Vision

To become globally benchmarked Education, IT, Investment and Health Care Services provider and young entrepreneurs' hub!

## Values

- We create Leaders
- Provide solutions not Problems
- Respect to others
- Accountability in Actions
- Empathetic in Culture
- We Speak the truth, work with honesty, keep the promise
- We embrace the change
- We believe in Innovation & Collaboration

# Leaders

▲ Picture taken in 2019

## **Leaders @ Daffodil Family**

The Daffodil Family has a solid channel of talents. We are developing leaders from the frontline to top executive position. We have created an environment where leadership capacities are automatically transmitted to the next level leader to serve the organization. Every individual member of the family gets inhouse training in technology uses, IT, Soft skills and hard skills. Also they get the mentorship from their supervisor. The founder of Daffodil Family always allowed his colleagues to work with 100% freedom and that is one of the best practices in Daffodil Family

This charitable effort is the vision of the Daffodil Group founder, Mr. Md. Sabur Khan. Daffodil Foundation aims to address the difficulties and basic needs of poor and underprivileged people in Bangladesh. The Foundation was set up in 2004 and registered on the Joint Stock Companies of Bangladesh under Society Registration Act 1860. Since then, we have begun projects in areas like: education, training, health issues, women rights and empowerment, and many more. We are trying not only to bring opportunities to the poor but also to solve their issues in new and imaginative ways. We are now inviting people and organizations to make a joint effort with us to ensure secure and satisfying lives for the peoples and giving effort to remove poverty from the nation.

Daffodil Family is committed to serve the society through its various concerns and the Board has taken the decision to donate one-third of the asset and money to the Charity works.

Industrial Innovation Centre (IIC) has been set up to make it a model centre of entrepreneurship development with all sorts of infrastructural facilities and regulatory & promotional support services for business & industries, especially for small & medium enterprises (SME). The objective is to extend the entrepreneurial movement among the educated youths of Bangladesh by establishing entrepreneurship as the mainstream sophisticated career choice of the youths of the 21st century.

# Projects of Daffodil Family

The authority of Daffodil International University is going to start a new school & college under the university management at Daffodil Smart City, Ashulia, Dhaka. The main objective of this School and College is to provide quality education for the children of faculty members and other academic and nonacademic staff members of the Daffodil family and also the children belonging to the local community.

GoEdu is an open online education platform that aims to contribute to developing personal and professional skills, abilities and traits of individuals by offering online self-paced courses. GoEdu understands that it is tough for learners to only depend on their academic institutions to fully equip them for their career and profession. GoEdu with its courses tries to create a bridge to cover the gap that lies between the latest industry requirements and the actual skills and knowledge of the professional people and adult learners.

Twenty-first-century innovation is bringing automation and a chance to improve security and value-added services to the campus. Smart ID card features bring a wide range of services such as tightening security, streamlining admission, improving paid services, leveraging technology, improving the quality of learning, simplifying administrative tasks, innovative solutions that automate facilities and streamline campus services.

## Daffodil Robotics Lab

Daffodil Robotics Lab helps you to create a great experience in education, event, promotion and innovation. Presently Daffodil Robotics Lab has the following solutions

School Robotics Lab Solution

University Lab Solution

Service by Customized Robots

Daffodil Robotics Lab develops robotics solutions for companies, educational institutions or any kind of events.

Global Health Research Centre (GHRC) is an independent, non-profit organization co-sponsored by Daffodil International University and the Daffodil Foundation. Founded in 2021 on the principle that effective health initiatives must be supported by reliable, evidence-based research, GHRC was created to conduct large-scale epidemiological studies in developing countries.

Blended Learning Center is the digital teaching and learning hub of Daffodil International University. The platform aims to connect teachers and students effectively allowing teachers to track progress of individual students and better facilitate their learning. As the process of its digitalization Daffodil International University is developing BLC from 2013 and preparing students and teachers compatible to work with this. A strong BLC team is working for the continuous development and training of teachers and students.

International Online University (IOU) is an open platform for online courses offered by reputed teachers, educators, institutions and organizations worldwide. The platform aims to lower the skill gaps of learners by offering modular skill and application based tutorials and guidelines carefully crafted by global educators and industries.

# Global Presence and Link with **Global Network**

*“Go Global” is the trend of today. In order to extract its global presence, Daffodil Family has already met the demanding quality standards of its customers in terms of both products and services. This inspiring success encouraged Daffodil Family for eying abroad and going global. Daffodil Family has already started to operate in different countries including USA, UK, Malaysia, Dubai and Nepal.*

## Global Presence:

Global Presence We live in an era of globalization and people are now considered as global citizen. Go Global is the trend today. In order to essence continuously its global presence Daffodil Family has already met the demanding quality standards of its customers in terms of both products and services which derived growth and success in every sector where it stepped. It is the result of our commitment for excellence in everything we do, continuous advancement, innovation and teamwork.

This inspiring success encouraged Daffodil Family for eying abroad and going global. Today Daffodil Family is concentrating on their expansion in the international arena and holding its flag beyond Bangladesh shores. Daffodil Family has already started to operate in different countries including USA, UK, Malaysia and Dubai.

## Joint Initiative with International Partners

**Daffodil  
Japan IT**

We encourage joint initiatives to ensure a global environment and attract future leaders from home and abroad to study, learn, and exchange experiences. Daffodil Family has a joint initiative with Daffodil Japan IT in Dhaka and we welcome any collaborative effort with international partners. From the very beginning, DJIT hired professionals who completed their graduation in CSE or IT background and had decent work experience of 2-5 years in IT firms. DJIT trained them according to international standards and posted them in different IT organizations located in Japan. Daffodil Japan IT has sent 15 IT graduates in Japan IT based organizations and 400+ students into different schools or colleges who are successfully continuing their higher education in Japan. DJIT has nearly 30 partner schools/colleges and universities.
